

# Glossaries Language Module: glossaries-polish

Nicola Talbot

version 1.0 (2014-11-23)

This language module simply needs to be installed. The glossaries package will automatically load it if required.

## 1 The Code

### 1.1 glossaries-polish-noenc.ldf

```
1 \@ifpackageloaded{polyglossia}%  
2 {%
```

This is unlikely to occur, since if polyglossia has been loaded then the glossaries-polish-utf8.ldf file should've been loaded instead.

```
